

# **Summer Breeze**

**Words and Music by Gary Soloman**

**Summer breeze flowing down the line  
Thoughts of you amplify my senses  
To the rhythm of my guitar  
No stage no lights no colour no sound  
Maroondah Highway to your heart  
Light coming from a greener hill  
Thoughts come and go on a drifting cloud  
Moves me closer and takes me home**

**I don't know why you hold back your feelings  
Seems like a million miles away  
Oh, babe won't you come on home again**

**Message from a nearer sun  
Flecks of light hit the ground  
Dance to rhythm of my guitar  
No Stage, no lights no colour no sound  
A purple haze fills my room and I feel you right beside me**

**I don't know why you hold back your feelings  
Seems like a million miles away  
Oh, babe won't you come on home again**

**A wild night in my head  
This feeling overtakes my senses  
To Rhythm of my guitar  
No Stage, no lights, no colour, no sound**

**I don't know why you hold back your feelings  
Seems like a million miles away  
Oh, babe won't you come on home again**

**I don't know why you hold back your feelings  
Seems like a million miles away  
Oh, babe won't you come on home again**

**Catch my dream  
Catch my dream**
