

Blues Express

Words and Music by Gary Soloman

**Sitting in Roma Station no rhyme no destination
Time goes by so fast, what was here now is past
Get on board because the train is leaving
Ain't nothing going to stop her, she is leaving now
On the blues express**

**How many times has she come and gone
How many times will she go on
How many times will I be here
How many times will it be so near.
On the blues express**

**The journey of soul it rocks it rolls along
Destination around the bend
The view is the journey's end
Rattling along on that old silver track
Hey baby there is no turning back**

**How many times has she come and gone
How many times will she go on
How many times will I be here
How many times will it be so near.
On the blues express**

Get on board

**How many times has she come and gone
How many times will she go on
How many times will I be here
How many times will it be so near.
On the blues express**

**Get on board
On the blues express
Get on board**
