

# **Talkin' about a Wave**

**Words and Music by Gary Soloman**

**See the waves crashing on the rocky rolling shore  
Take the long way baby it's the only way to go  
Pack up all your fears and set them on the wind**

**Can't take it with you baby so you might as well stay  
This windy Road where the sun comes to play  
Pack up all your fears and set them on the wind  
Let it be the way the wave within**

**Talkin about a way, talkin about a way, talking about a wave  
Talkin about a way, talkin about a way, talking about a wave  
Talkin about a way, talkin about a way, talking about a wave**

**Talkin about a way, talkin about a way, talking about a wave  
Talkin about a way, talkin about a way, talking about a wave**

**Down a street called one way love  
Hold it close to your heart and it will rise above  
Pack up all your fears and set them on the wind  
Let it be the way the wave within**

**Talkin about a way, talkin about a way, talking about a wave  
Talkin about a way, talkin about a way, talking about a wave**
