

Words Don't Reach You

Words and Music by Gary Soloman

**As stars shine across the midnight blue
The morning rain washes away dreams of you
You can't run and you can't hide
The truth will follow you every time**

**Just as the sun rises to greet the morning dew
And the wind carries away the news of you
Only one thing stays after the day is through
Words they don't reach you**

**Don't want to waste a lifetime to see you get over it
Don't want to stand in the shadow of your smile
Don't want to waste a life line to see a new beginning
Words they don't reach you**
