

Aerostars

Words & Music by Gary Soloman

**Morning star rises before the sun
Yellow moon lights up the night run
Darkest night sinking so low
Waves crashing shaking the smooth flow
Paper tigers all around
A new day is born making no sound
High tide feeling my fears
Rolling back the years
If you... could only be my...**

**Aerostars rising to the sun
Aerostars lights up the long run
The Aerostars rising to the moon
My morning star I'll be home soon**

**Day breaks on a clear blue sky
The wind is light and I'm ready to fly
The moments come to take a chance
And my heart begins to dance
High tide feeling my fears
Rolling back the years
If you, could only be my
Aerostar**

**Aerostars rising to the sun
Aerostars light up the long run
Aerstars flying to the moon
The morning star I'll be home soon.**
