

# **Rolling Stone**

**Words & Music by Gary Soloman**

## **Verse 1**

**Your kicking those pebbles down the road  
The same one that beats like a heart of gold  
Diamond dust is hanging in the air  
Real life on the tube over there**

## **Chorus**

**With your heads in the clouds  
We're living on a rolling stone  
Your facing the wind  
Searching for that heart of gold**

## **Verse 2**

**Riding on a slip stream, the eye of the hurricane  
Casting shadows all over the land  
Throwing out the old meme bringing in a new dream  
Oh yeah, we've got to get out of this scene**

## **CHORUS**

## **Verse 3**

**10,9,8,7,6,5,4**

**Watching the drones flying out my back door  
Midnight oil is burning around the clock  
The last shuttle is waiting to dock**

**With your head in the clouds  
We're living on a rolling stone  
Your facing the wind  
Searching for a heart of gold**

**Your heads in the clouds  
We're living on a rolling stone  
Your facing the wind  
Searching for a heart of gold**

**Searching for a heart of gold**

**Living on a rolling stone**
