

# **Everybody Shines**

**Words & Music by Gary Soloman**

**Through the window to the sky  
I see the years passing by  
Down the long and winding road  
Grow the seeds that I've sown  
In the silence in my dreams  
I hear a whisper from the trees**

**Only one empire  
Of the sun that will survive  
A trillion stars looking at me  
Everybody, everybody shines  
One empire will guide  
Everybody shines**

**A fire in my heart  
A glow in the dark  
A flame burns on  
Lights the way to carry on**

**Only one empire  
Of the sun that will survive  
A trillion stars looking at me  
Everybody, everybody shines  
One empire will guide  
Everybody shines**

## **Instrumental**

**The dollar that has burned  
The wheel that has turned  
The oceans of my soul  
So deep that I know that**

**Only one empire  
Of the sun that will survive  
A trillion stars looking at me**

**Everybody, everybody shines  
One empire will guide  
Everybody shines  
X2**

**Repeat  
Everybody, Everybody shines**
