

# **Losing You**

**Words & Music by Gary Soloman**

**Baby you never answer me when I call  
Like I never knew you at all  
Your cold, cold fingers running down my spine  
This broken heart is on the line**

**These words keep ringing in my head  
Try to remember what you said  
I know you really, really want to tell me goodbye**

**All I need is to hear you say  
The love you had has gone away  
My heart is swingin' on a string  
Let's do it again, give it a spin**

**These words keep ringing in my head  
Try to remember what you said  
I know you really, really want to tell me goodbye**

**Feels like I'm losing you  
Feels like I'm losing you  
Feels like I'm losing you**

**You ran on down a dead-end road  
Did you realise the trouble you sowed?  
Trouble is your middle name  
I've got to move on, rest the game**

**These words keep ringing in my head  
Try to remember what you said  
I know you really, really want to tell me goodbye**

**These words keep ringing in my head  
Try to remember what you said  
I know you really, really want to tell me goodbye  
Tell me goodbye  
Tell me goodbye**

**Feels like I'm losing you**  
**Feels like I'm losing you**  
**Feels like I'm losing you**
